Lloyd& | Coronavirus (COVID-19): Whyte | Dentist FAQs

Q. My practice is now temporarily shut until further notice, is my plan still continuing and will my patients' direct debits be collected?

- **Q.** If the practice is closed, what benefit will my patients have from being on the plan if they cannot attend appointments?
- A. Yes, it is business as normal in regards to the direct debit collections. We have the infrastructure in place to minimise any impact on the day to day operation of administering your plan and the collections. Patient direct debit collections and the monthly payment to you will also continue as normal.

A. As the practice is only temporarily closed any upcoming appointments can be rescheduled, so patients will not miss out on any examinations or hygiene appointments. In addition to this your patients are still able to claim from the Worldwide Accident & Emergency Dental Insurance in the event of an emergency or accident under the plan. The benefit under this remains the same covering your patients for Emergencies and treatment following an accident.

The Worldwide accident & Emergency Insurance Policy wording can be found here: www.lloydwhyte.com/dentists/documents

- **Q.** Can patients suspend their monthly payments?
 - A. Yes if they need to suspend their payment they can. This would pause any collection by us until instructed to start again. By suspending payment all benefits the patient would receive including the insurance will be paused. The benefits your patients receive under the plan are over a 12 month period and spreading the cost for these benefits in to 12 monthly payments. If a patient suspends their plan and misses a few payments this could then effect future examinations or hygiene appointments. If a plan is suspended we can restart the plan at a later date without them having to fill out a new form. If a patient cancels, and wants to restart the plan at a later date, they would have to fill out a new agreement form.

- **Q.** Can we offer an option to reduce the plan payment to keep patients on plan instead of cancelling or suspending?
 - A. Yes, this is your plan and if you would like us to create a new low cost plan to reduce the monthly payment to keep patients on the plan then we can implement that for you. This will keep your patient on the plan and protected by insurance. It also keeps some revenue for the practice which could have been lost all together by the patient cancelling or suspending their plan. To organise this or to discuss your options further please give us a call and we will be more than happy to help with this.
- **Q.** Am I able to easily move patients on to the new plan?
 - A. Yes, once set up you will be able to move patients straight away on to the new plan via your online portal or my contacting our customer support team on 01823 250709 or email dpp@lloydwhyte.com
- **Q.** I want to contact all of the plan patients to give reassurance and update them regarding the plan, what help can you provide?
 - A. We can offer advice and help to write the communication, we will also be able to create, print and post the letters for you however the cost will be passed back to you. Due to the current situation we recommend you use email, text, your website or social media pages for communicating with your patients.

Q. Can I still access my plan literature?

A. Yes, if you require any of the plan literature we can provide the leaflet, patient agreement forms and the insurance documents in pdf format. For the time being we will not be batch printing and sending hard copies of the literature to our practices and ask that, if you are able to do so, to print from the pdf's.

Rest assured we are here to help and advise in any way we can.

If you have any further queries or would like to explore the options available to you and your plan please do get in contact straight away.
